

Genetically Engineered Food

Current food issues

Genetically engineered food (called GE, GMO, transgenic, or biotech), patenting of seeds and living organisms, food safety, hunger, cloning, NAIS, industrial waste used in fertilizer, nanotechnology, current and pending legislation and more

To learn more, please visit the following websites

<http://www.centerforfoodsafety.org/> - information on current and pending legislation, public comment periods, and petitions to submit on-line regarding GMO's, nanotechnology, etc. Note the "Urgent Actions" column on the far right side of this homepage for the most up-to-date issues in food-related legislation and see how you can help.

www.seedsofdeception.com – free audio and video lectures on GMO's

www.responsibletechnology.org – petition to President Obama to request mandatory labeling of GE foods. Excellent, easy to understand 6 page Q and A about GMO's. Non-GMO shopping guide.

www.thecampaign.org – grassroots action for the mandatory labeling of GMO foods.

www.globaljusticeecology.org – campaign to stop development and planting of GE trees and to ban the patenting of living organisms and their offspring.

www.safefoodandfertilizer.org – advocates for a ban on the legal use of hazardous waste in fertilizer

www.libertyark.net – information on the National Animal Identification System (NAIS)

www.farmandranchfreedom.org – also information on the NAIS

www.foodfirst.org – world hunger issues

www.organicconsumers.org – has an e-newsletter and loads of information on the above topics

www.nongmoproject.org – setting verifiable standards to test and label GE foods in the marketplace.

www.whitehouse.gov – see agenda – rural and technology

www.youtube.com – search for free videos on GMO's, seed patenting, etc.

ALSO, check your local library and bookstore for information.
